Pallet Factory  
**Bridge**  
*Morgan County*

Pallet Factory Bridge is located in Morgan County and carries County Route 13 over Sleepy Creek. The two span bridge is one lane wide but carries two way traffic. It consists of concrete girders supported by concrete abutments and a concrete pier. It is 117 feet long. The bridge contains concrete parapet with recessed panels and a reinforced concrete deck with asphalt overlay. The bridge is posted for weight restrictions. It was constructed in 1925 by Polino Construction Company. Pallet Factory Bridge is eligible for the National Register of Historic Places under Criterion C as a design uncommon in West Virginia and association with a regional or West Virginia based builder whose work is recognizable in within the state. The uncommon design element consists of each span consisting of a through girder with the parapet serving as the girder.
